Abubaker

Database Administrator | PostgreSQL - Oracle - MySQL

Islamabad, Pakistan | abubakerajazz@gmail.com | +92 303 9620098 | linkedin.com/in/aubakerzzz | github.com/Aubakerzzz

Computer Science graduate with hands-on coursework and project experience in database design, SQL performance tuning, and Linux-based systems, seeking a Database Administrator role. Comfortable independently installing, configuring, and troubleshooting PostgreSQL, MySQL, and Oracle environments, with a strong foundation in relational and NoSQL data modeling.

CORE COMPETENCIES

Database Platforms: PostgreSQL, Oracle Database, MySQL, SQL Server

High Availability & Replication: PostgreSQL Streaming Replication / Hot Standby, Oracle Data Guard (Active/Standby), Failover & Switchover Planning

Backup & Recovery: pg_dump, pg_basebackup, postgres_fdw, Oracle RMAN, Data Pump

Administration & Tuning: User & Role Management, Query Optimization, Indexing, Vacuuming, Reindexing, Statistics Updates, Performance Monitoring

Database Design: Relational Modeling, Normalization, ER Diagrams, NoSQL Concepts (Document & Key-Value Stores)

Systems & Tools: Linux Administration, SQL, Bash, Git/GitHub, Java, ASP.NET, Cloud Computing (AWS)

RELEVANT PROJECTS

Integrated Test Automation Solution (ITAS) *Test Automation, Reporting Dashboard, SQL*

- Built a test automation lab solution backed by a relational database, streamlining and scaling test data collection and reporting.
- Designed and implemented a reporting dashboard with SQL-driven queries to aggregate and present data across corporate portals and mobile devices.

University Management System *Java, Relational Database, WhatsApp/Notification API*

- Designed and normalized the relational schema for Student, Faculty, and Admin portals, managing user roles and access permissions.
- Integrated WhatsApp and notification services with database-backed triggers for real-time student and faculty updates.

Flex Track - Dynamic Management Website *ASP.NET, SQL Server, Voice Recognition*

- Built a data-driven ASP.NET web application with a SQL Server backend, focusing on query performance for dynamic content.
- Integrated voice recognition and speech synthesis features, coordinating real-time data reads and writes against the database layer.

EDUCATION

BS Computer Science 09/2021 - 06/2026

FAST - National University of Computer and Emerging Sciences, Islamabad

Relevant coursework: Database Systems, Data Mining, Statistical Modeling, Cloud Computing (AWS), Parallel and Distributed Computing, Artificial Intelligence, MLOps

CERTIFICATIONS

- Salesforce AI Associate Certificate - Trailhead by Salesforce
- Introduction to Git and GitHub - Coursera
- Introduction to Agile Development and Scrum - IBM / Coursera
- Foundations of Project Management - Google / Coursera
- MLOps Specialization - DeepLearning.AI & Stanford University / Coursera
